Auronet Login:

There are two types of login options available to sign in Auronet.

1. Login using Username or Email and Password:

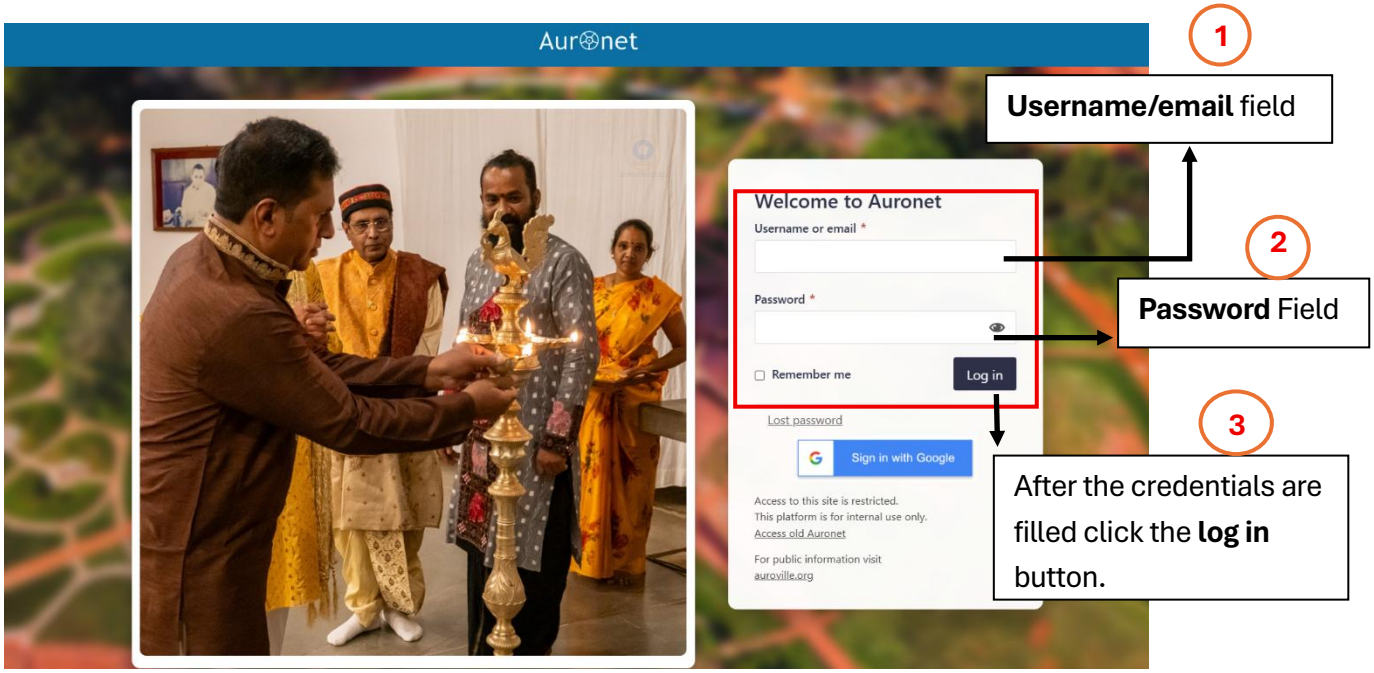
Step 1: Enter your **Username** or registered Email ID in the username/email field.

Step 2: In the **password** field, enter the password that was initially provided to you when you're Auronet account was created (if using it for the first time).

- If you have changed your password after your first login, you should use your registered username or email ID along with the updated password to Log in.

Step 3: After filing the credentials fields click the **log in** button to sign into your account.

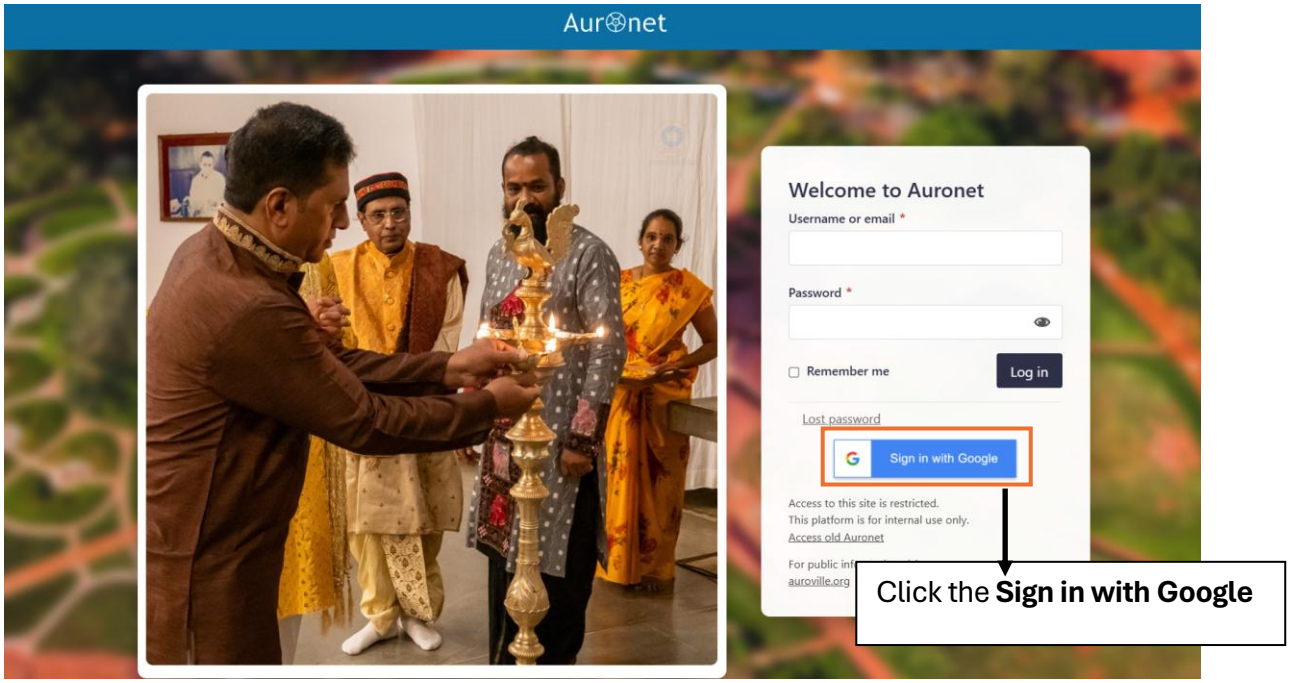
Auronet Home Page:



2. Login using Google Sign in:

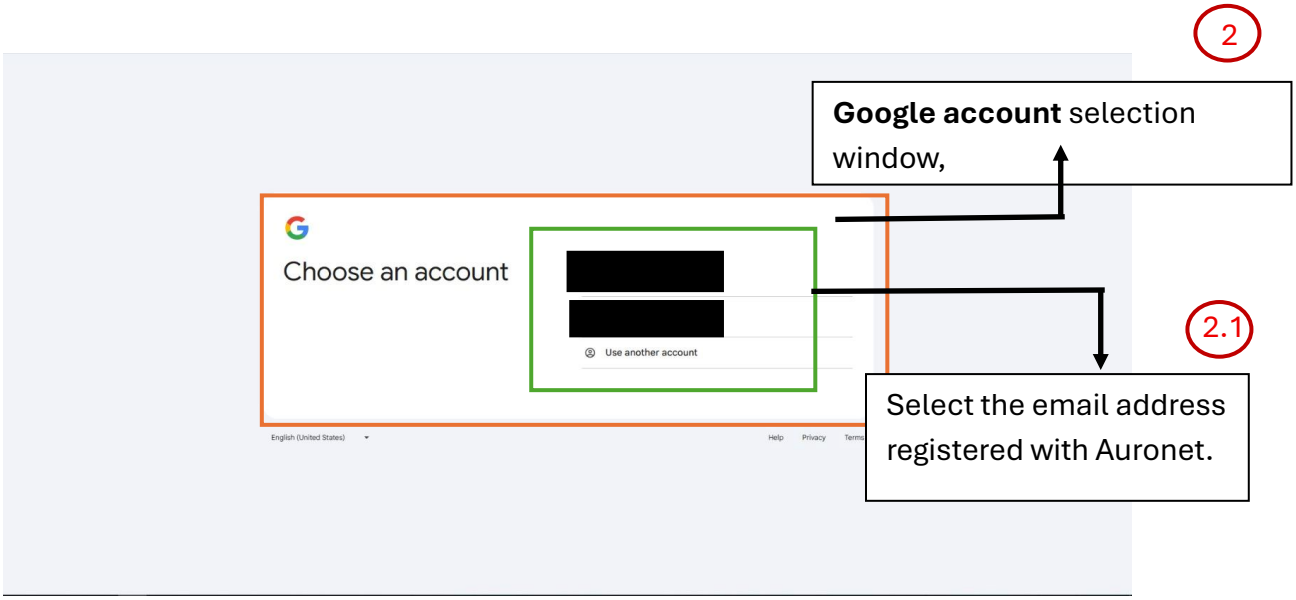
This option allows users to log in to Auronet using their Google account associated with their registered email.

Step 1: Click the “Sign in with Google” button available on the login page.



Step 2: A Google account selection window will appear.

Step 2.1: Select the Google account that is registered with Auronet.



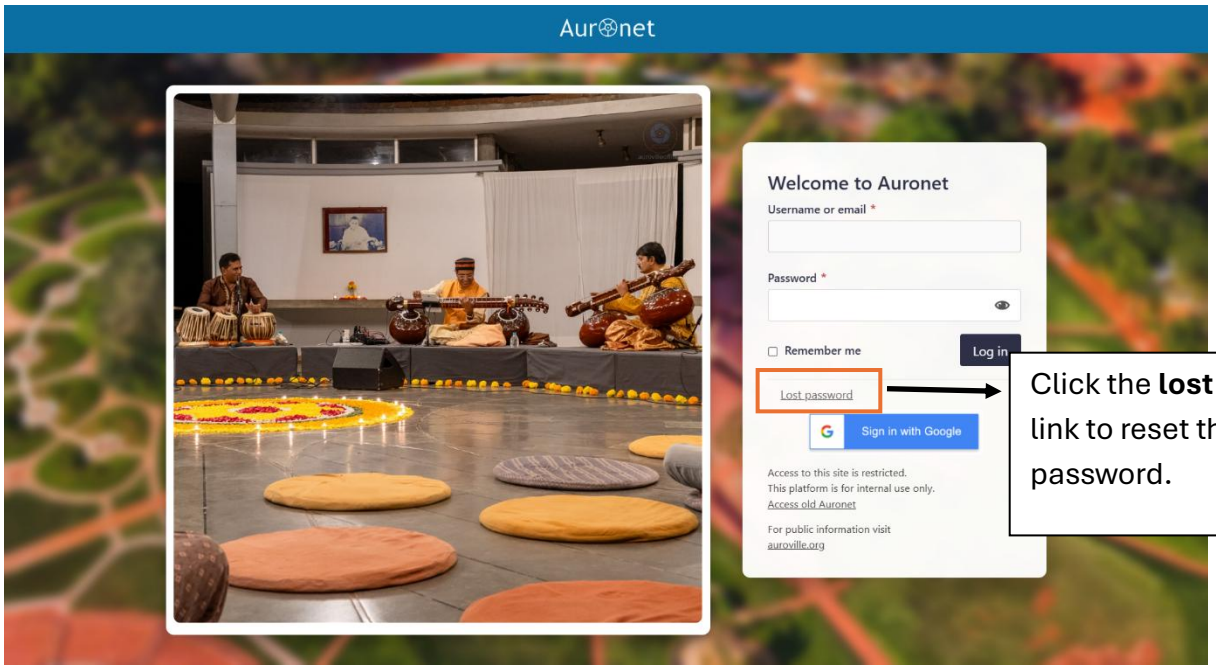
Step 3: After selecting the account, the system will automatically authenticate and sign you in to Auronet

Auronet Forgot Password:

Forgot / Lost Password

If you have forgotten or lost your password, you can reset it by following the steps below:

Step 1: On the login page, click the “Lost Password” link.

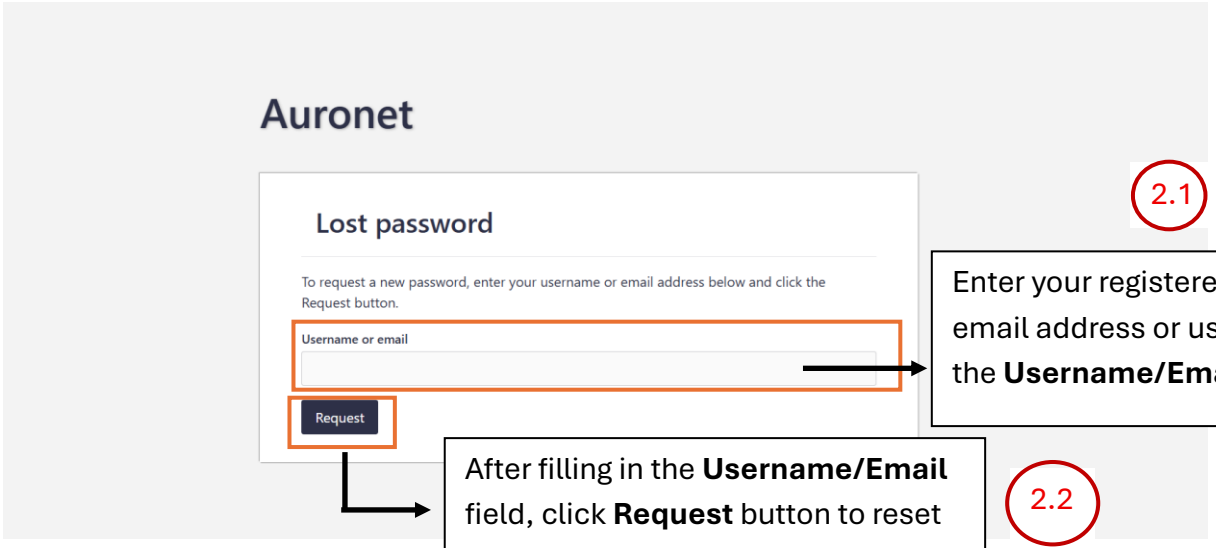


Step 2: You will be redirected to the Lost Password page.

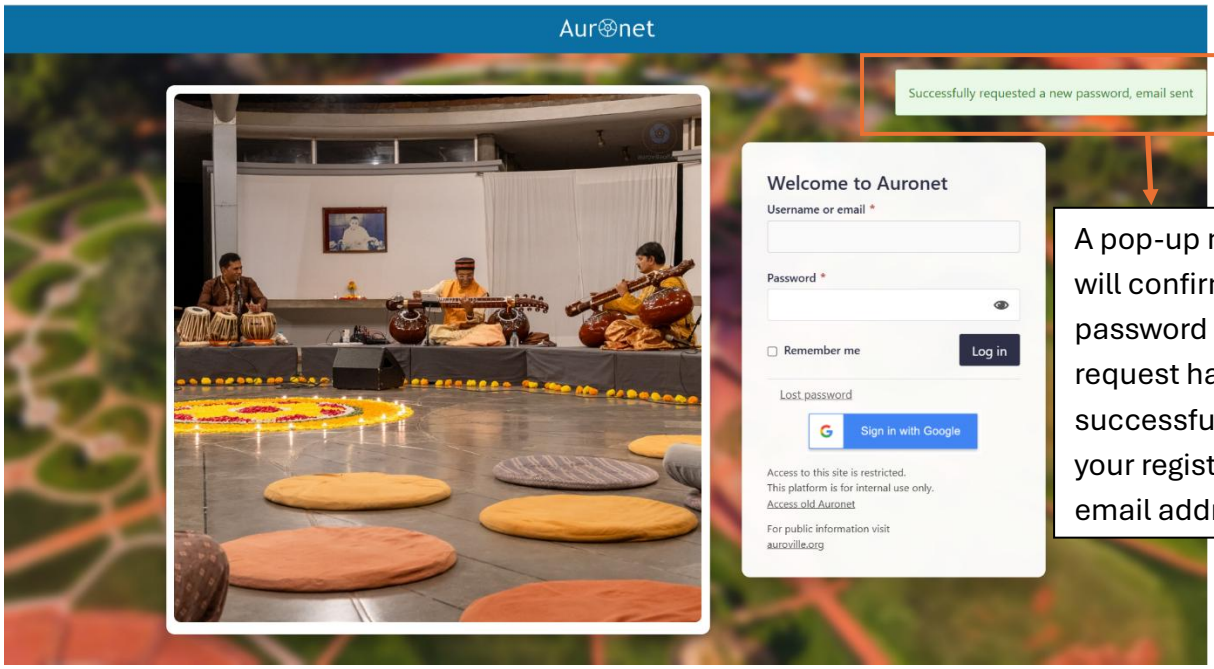
Step 2.1: Enter your Auronet registered email address in the provided field.

Step 2.2: Click the Request button to initiate the password reset process.

Lost Password Page:



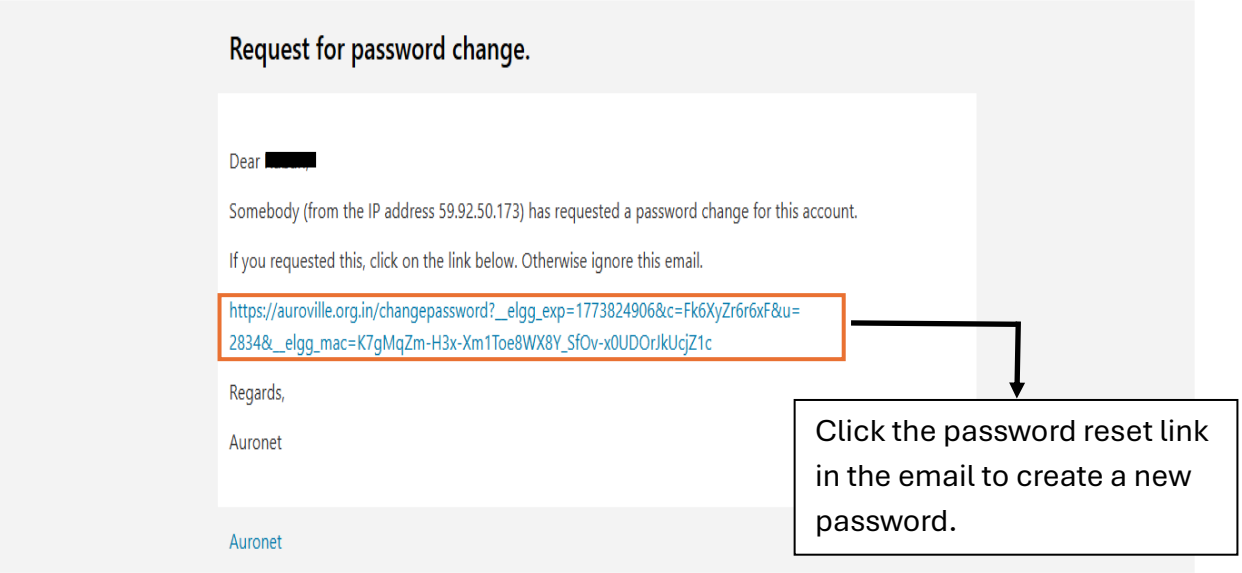
Step 3: After submitting the request, you will be redirected to the home page. A pop-up message will confirm that your request has been successfully submitted and that a password reset email has been sent to your registered email address.



Step 4: An email will be sent to your registered email address from Auronet.

Step 4.1: Open the email and click on the password reset link provided.

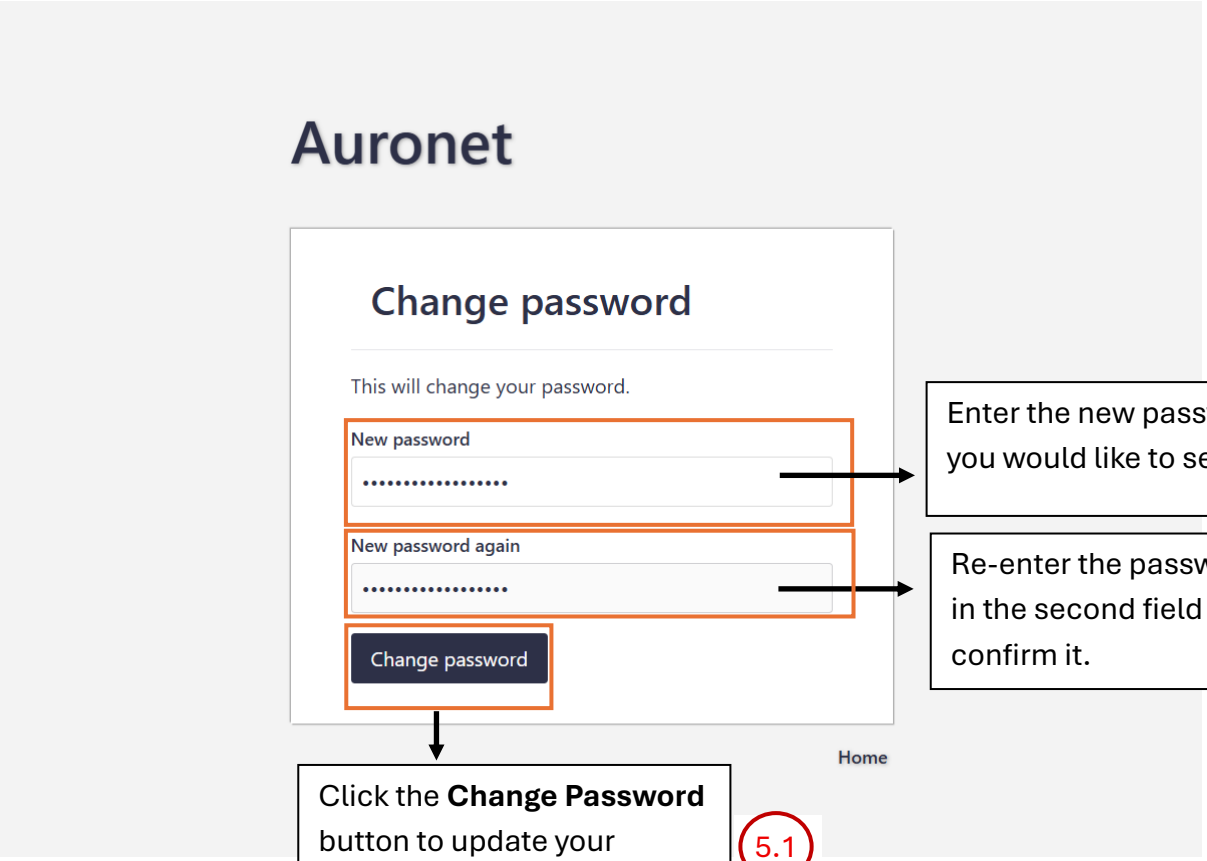
Email Form Auronet:



Step 5: After that, you will be redirected to the Auronet **Change Password** page. Enter your new password in the first field, re-enter it in the confirmation second field.

> **Step 5.1:** Click **Change Password**. Your password will be updated, and you will be logged into your account

Auronet Change Password Page:



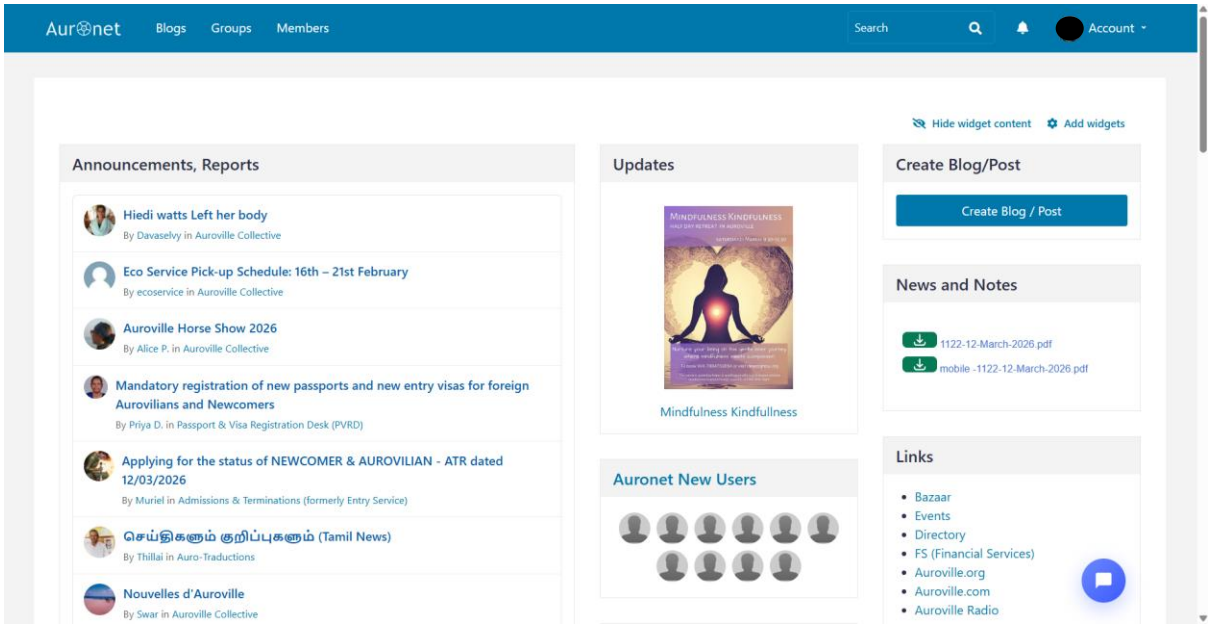
Step 6: You will be logged into your account immediately after clicking **Change Password**, with your new password updated.

Auronet Change user password:

To change your account password, follow the steps below:

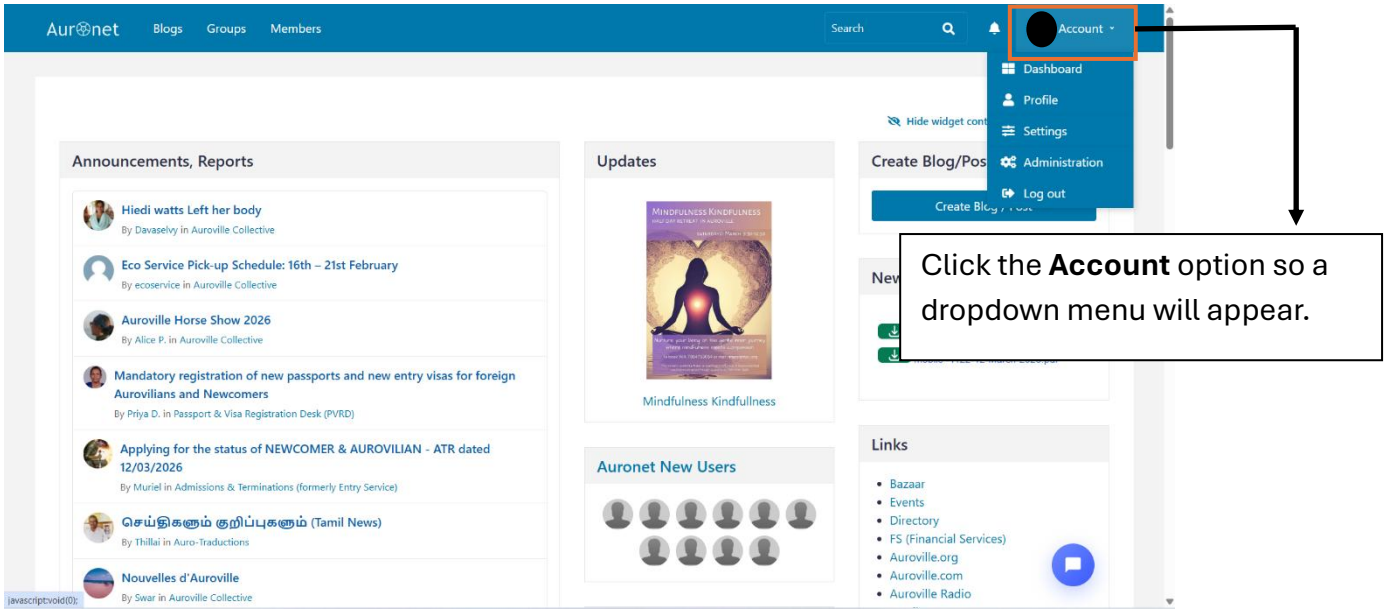
Step 1: Log in to your account using your registered credentials.

Account Homepage:

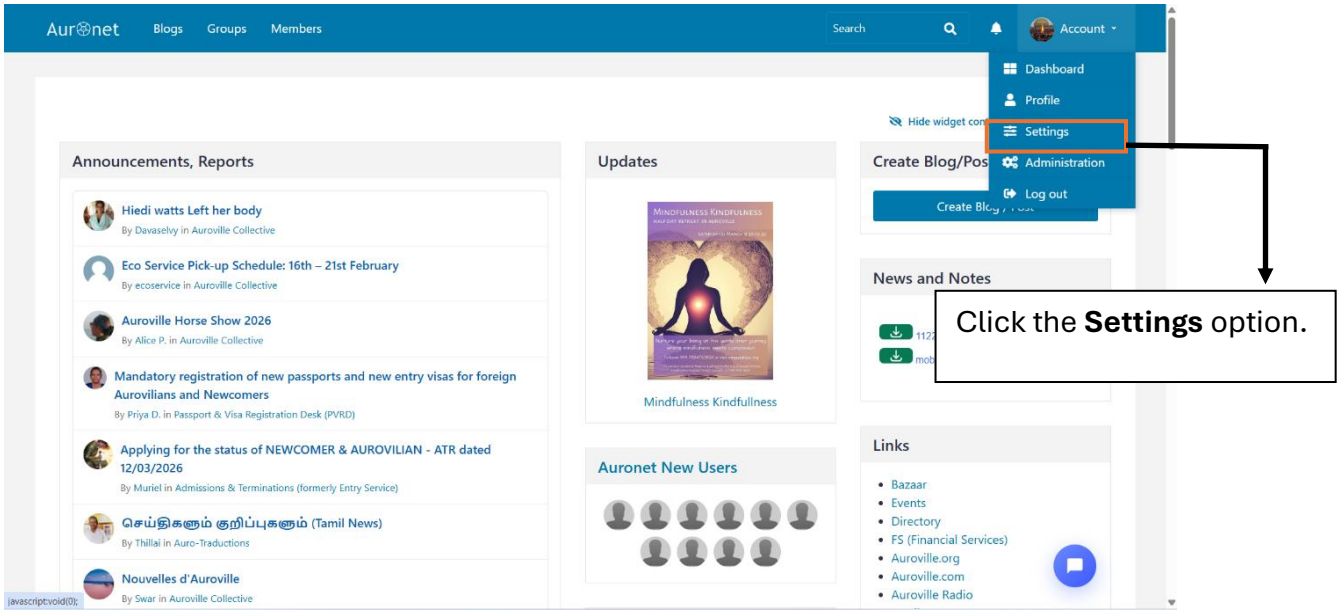


Step 2: After logging in, go to the **Account** icon located in the **top-right corner** of the page.

Step 2.1: Click on the **Account** icon to open the **dropdown menu**.

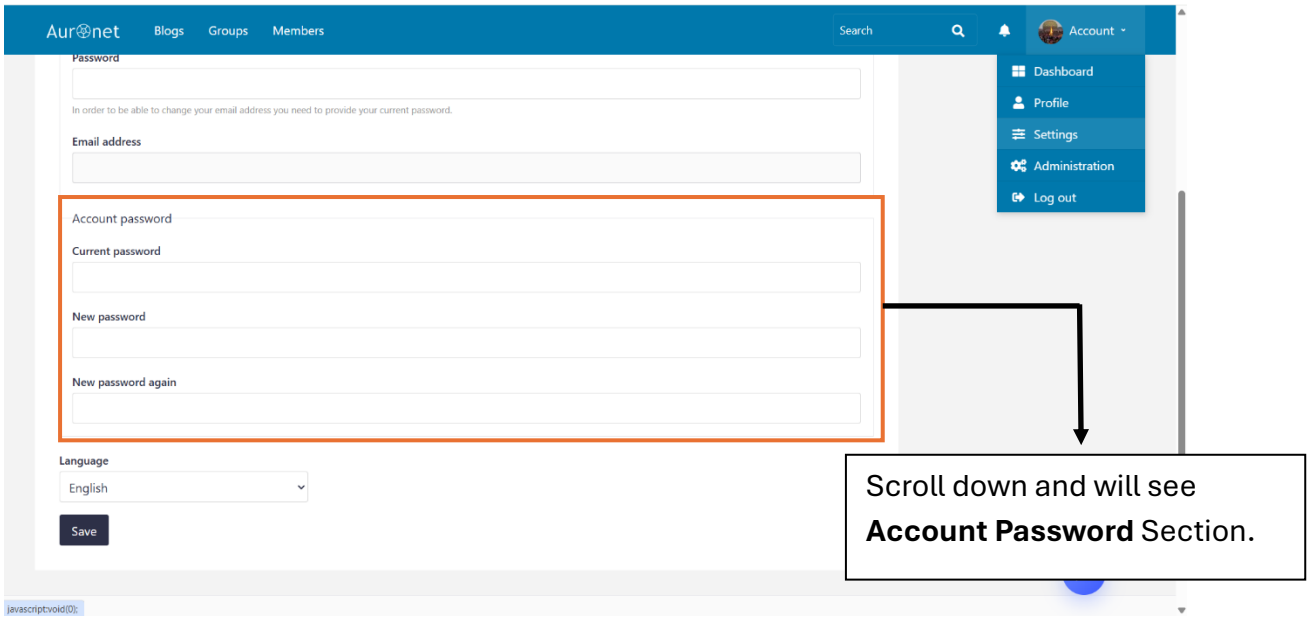


Step 3: From the dropdown list, select the **Settings** option.



Step 4: The Settings page will open. Navigate to the **Account Password** section.

Settings Page:

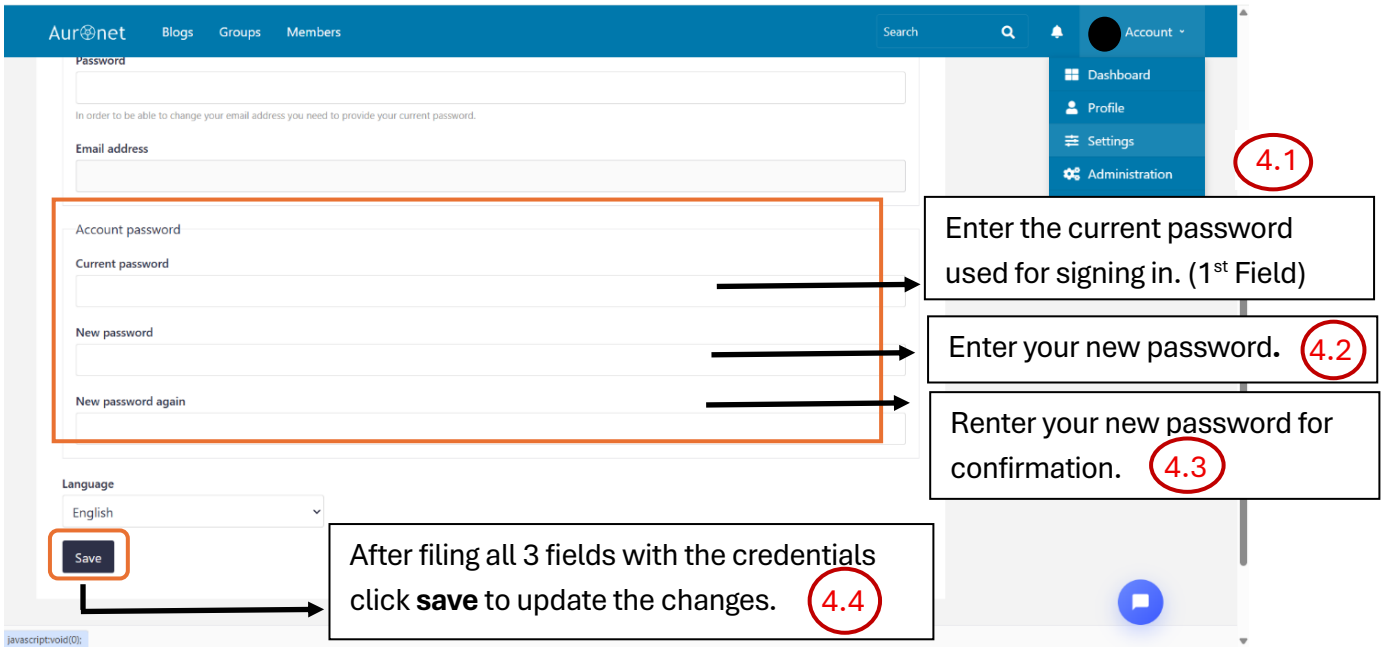


Step 4.1: In the first field, enter your **current password**.

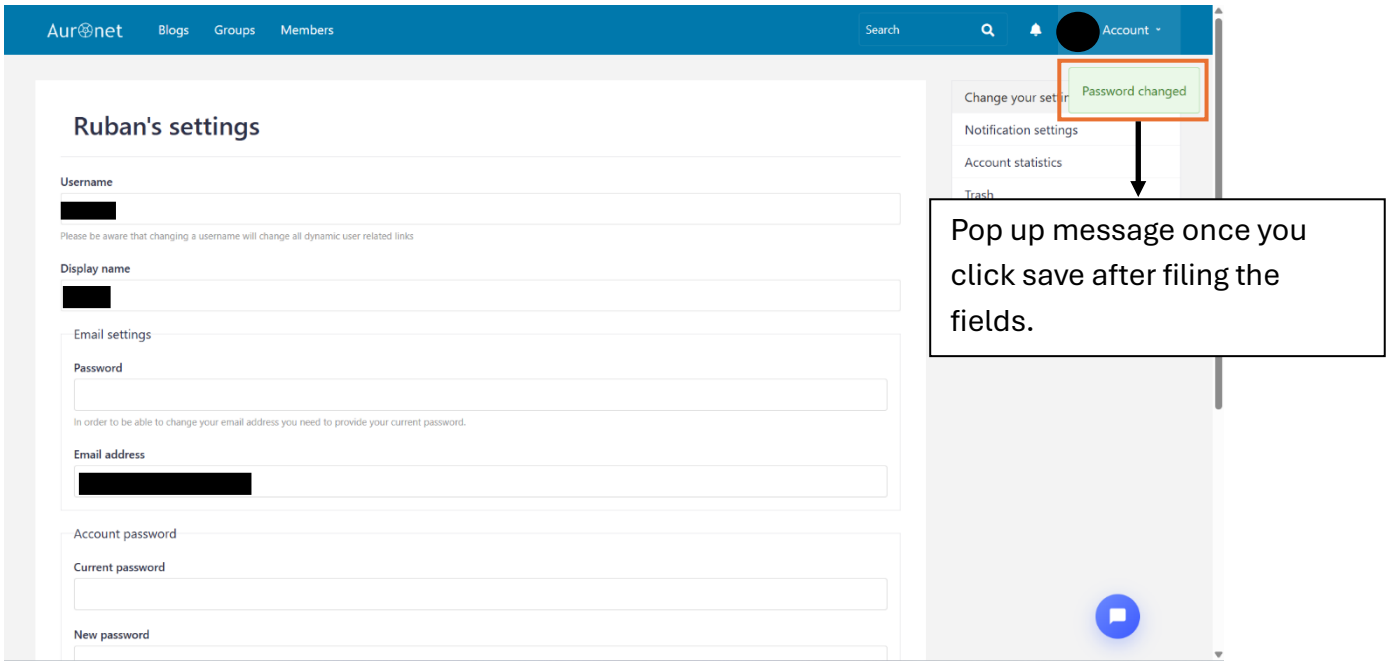
Step 4.2: In the second field, enter your **new password**.

Step 4.3: In the third field, **confirm your new password** by entering it again.

Step 4.4: Scroll to the bottom of the page and click the **Save** button.



Step 5: After filling in the required fields and clicking the **Save** button, you will receive a notification from the **Settings** page within a few seconds confirming that your password has been changed.



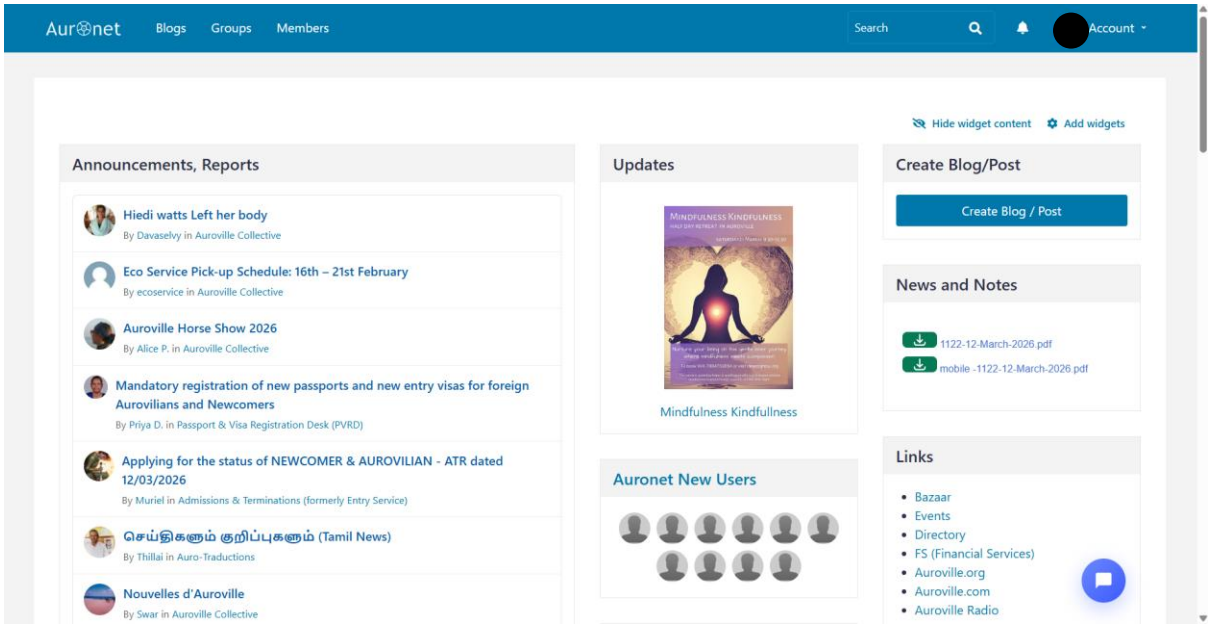
Step 6: Once the password is successfully updated, a **notification email will be sent to your registered email address** confirming the password change.

Auronet Change User E-mail:

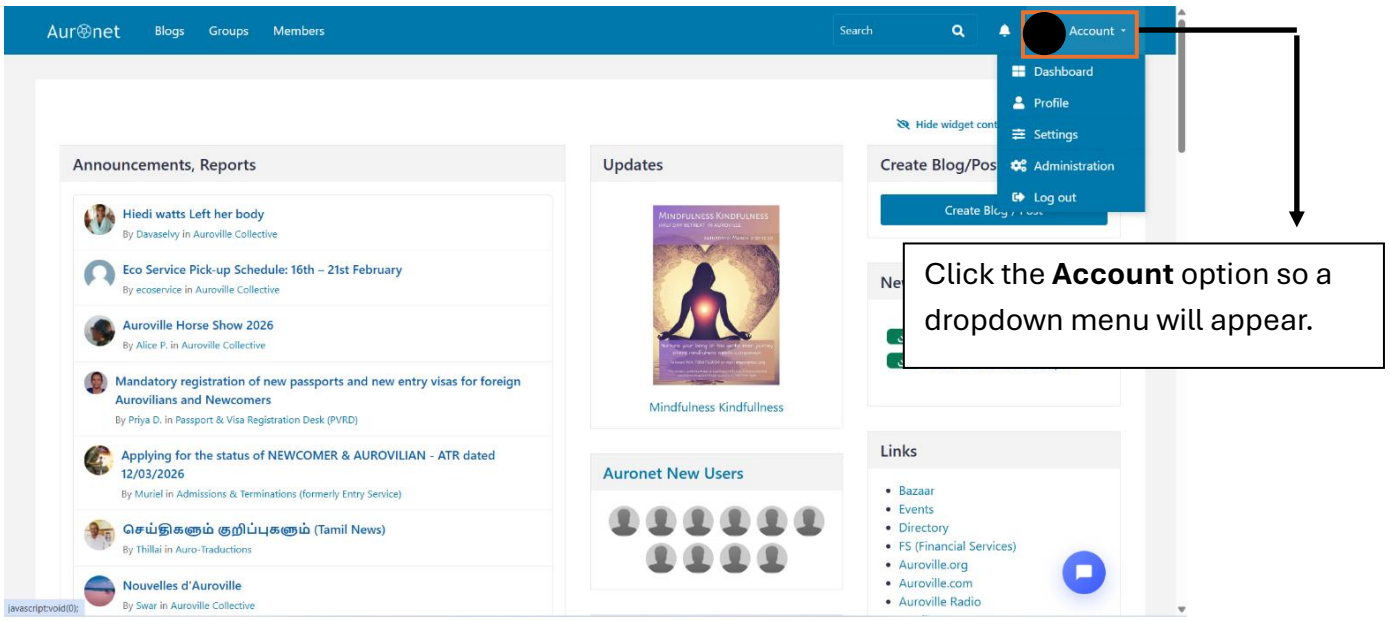
To update your registered email address, follow the steps below:

Step 1: Log in to your account using your registered credentials.

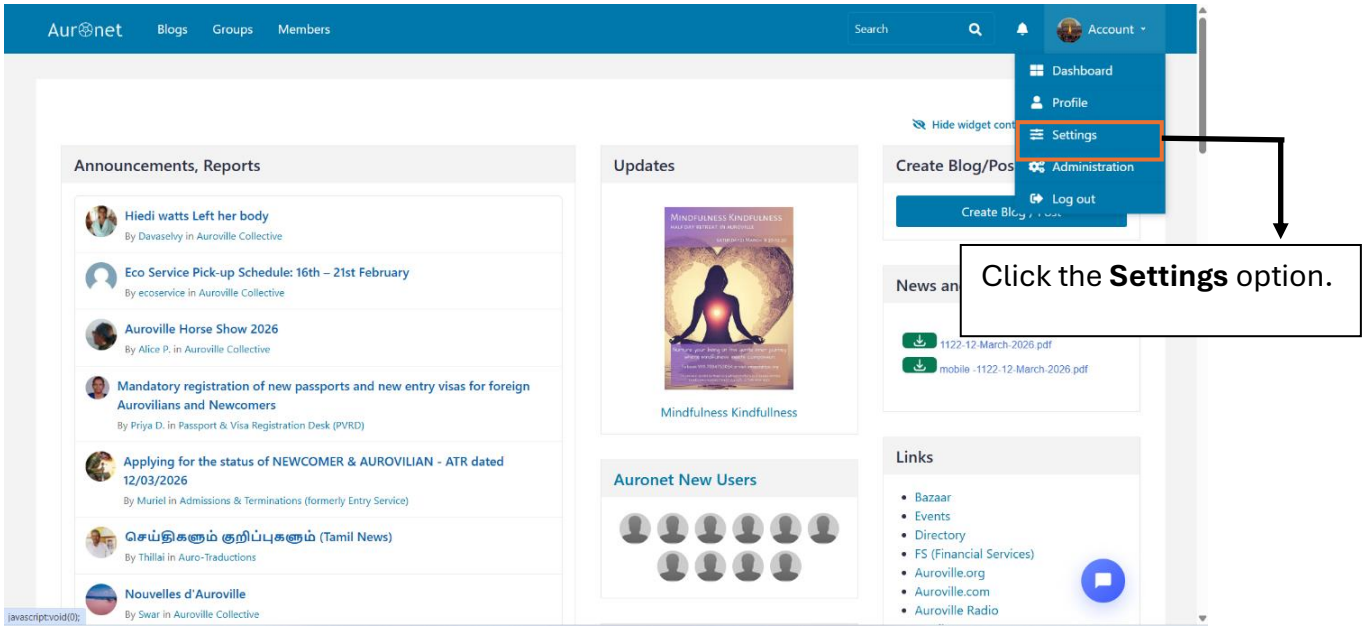
Account Homepage:



Step 2: After logging in, click on the **Account** icon located in the **top-right corner** of the page.

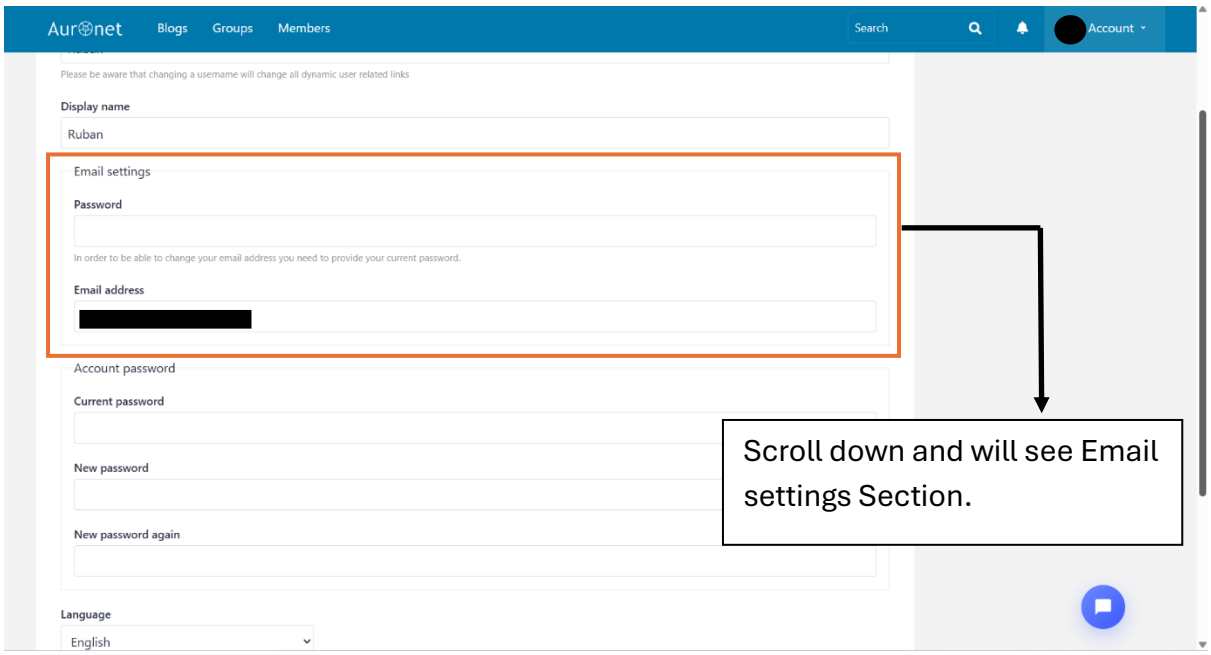


Step 3: From the dropdown menu, select the **Settings** option.



Step 4: On the **Settings page**, navigate to the **Email section**.

Settings Page:

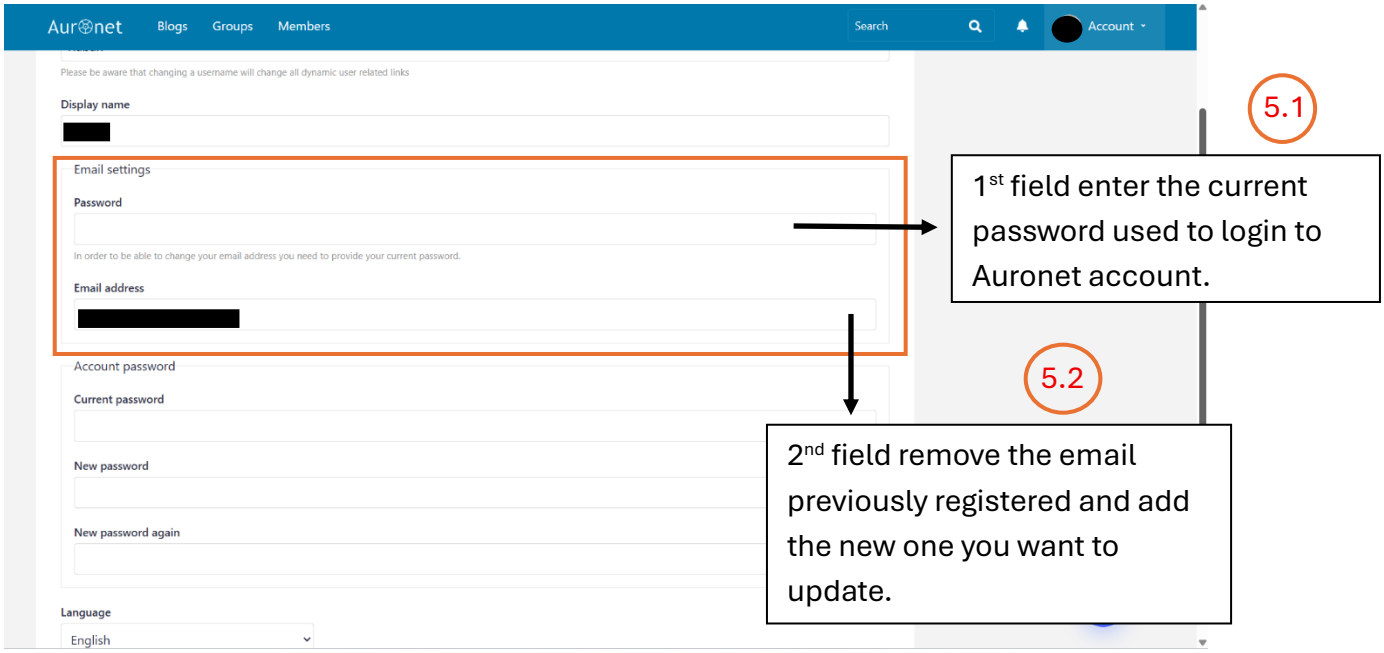


Step 5: In the section you will find two fields:

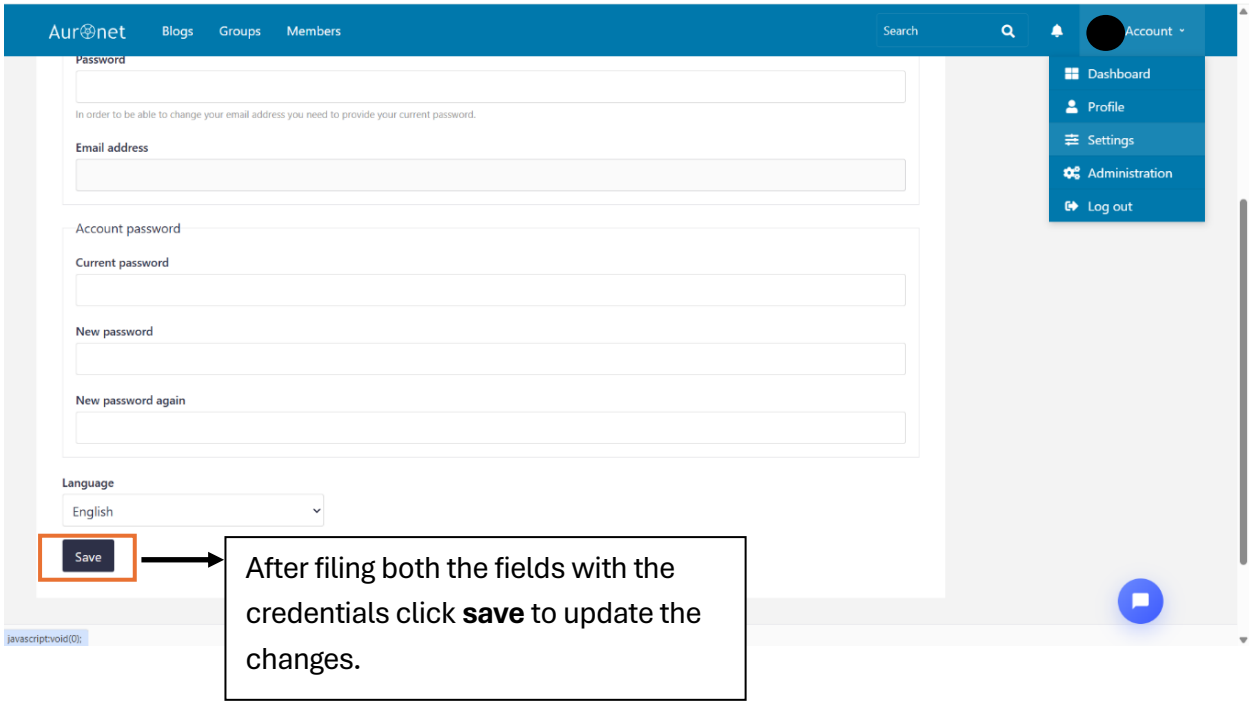
Step 5.1: Password field (1st field): Enter your **current account password** used to log in to Auronet.

Step 5.2: Email field (2nd field): Remove your **existing email address** and enter your **new email address**.

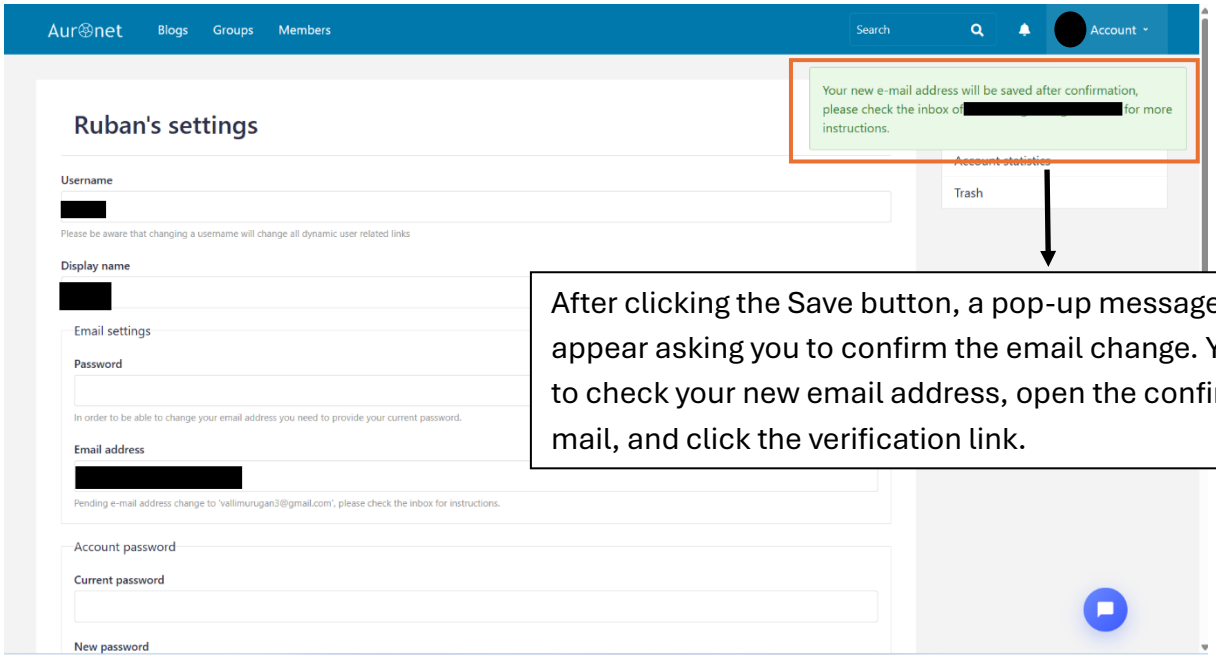
Settings Page:



Step 6: After entering the required details, scroll down and click the **Save** button.

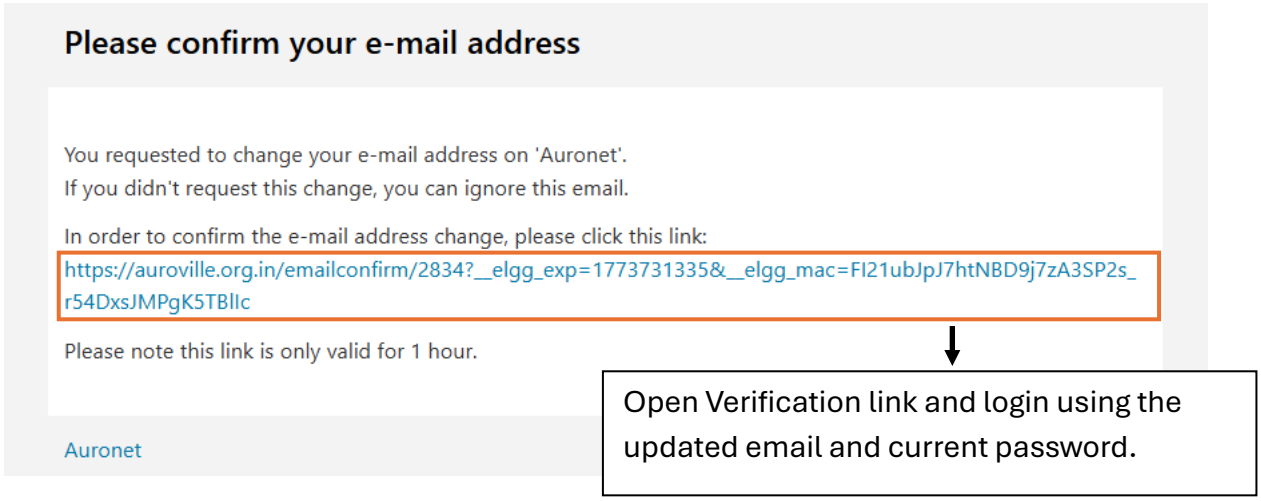


Step 7: After clicking the Save button, a pop-up message will appear indicating that the email change will be completed only after user confirmation.



To confirm the update:

- Log in to the new email address you have provided.
- Open the confirmation email sent by Auronet.
- Click on the verification link provided in the email.

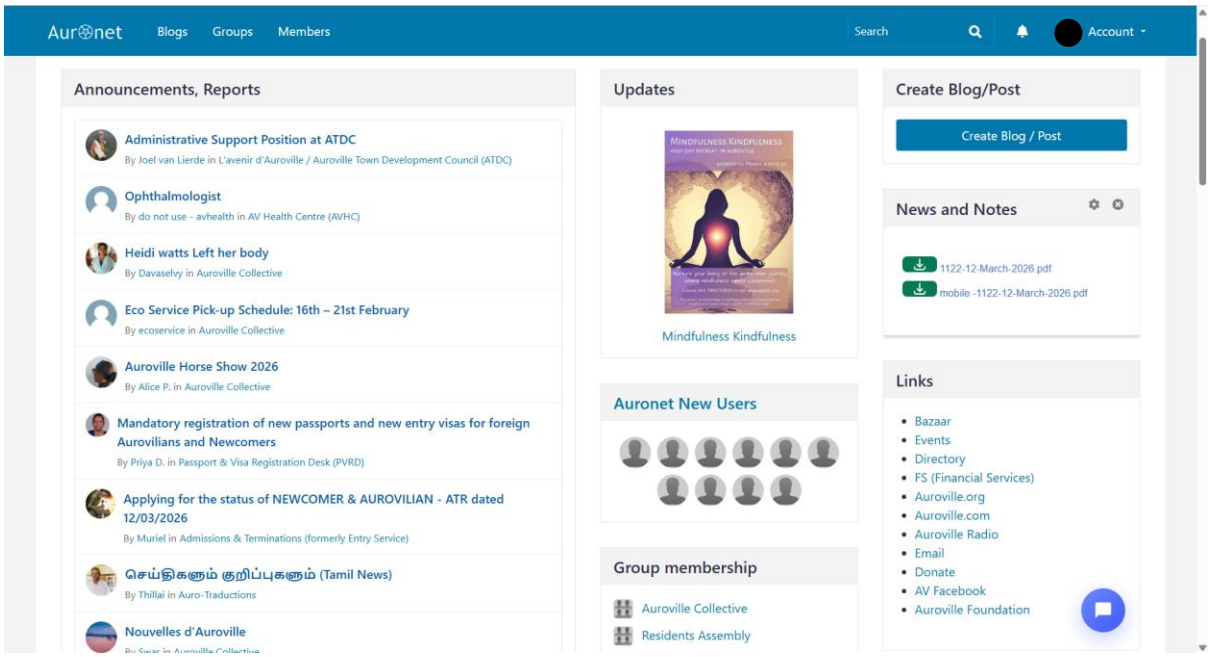


Step 8: Once the verification process is completed, your new email address will be successfully updated and can be used for future logins.

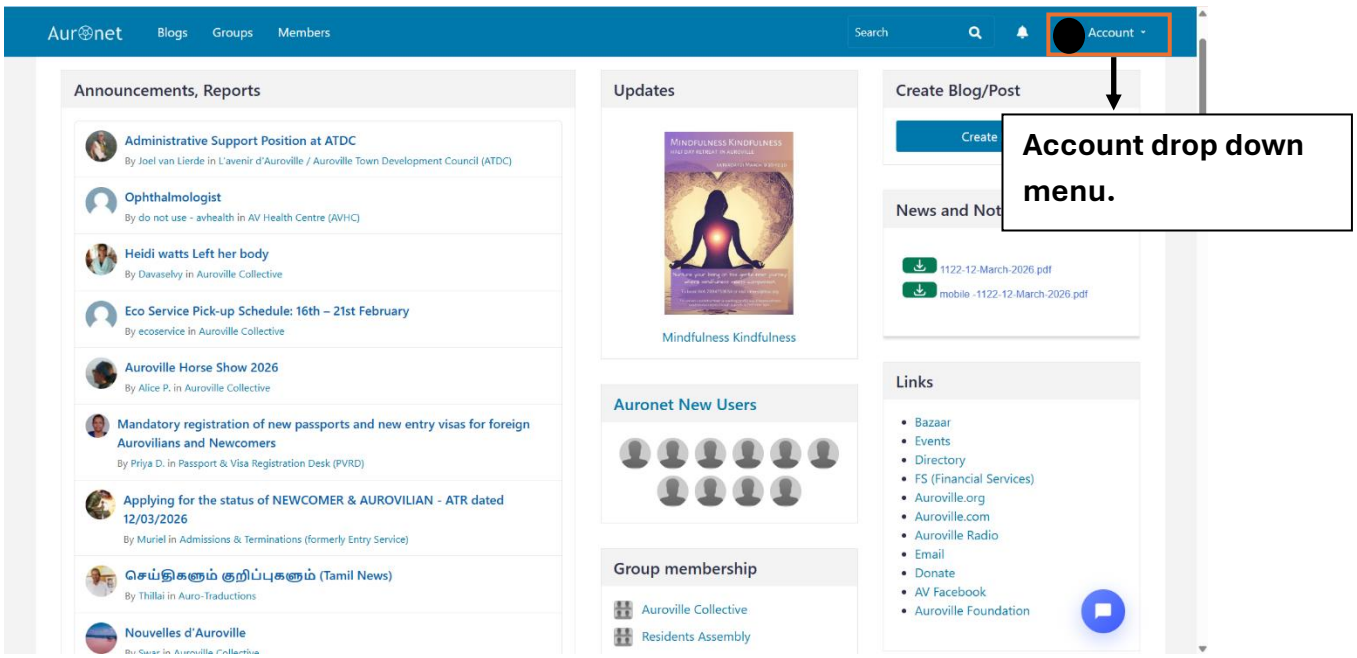
Auronet Edit Profile:

Accessing the Edit Profile Page

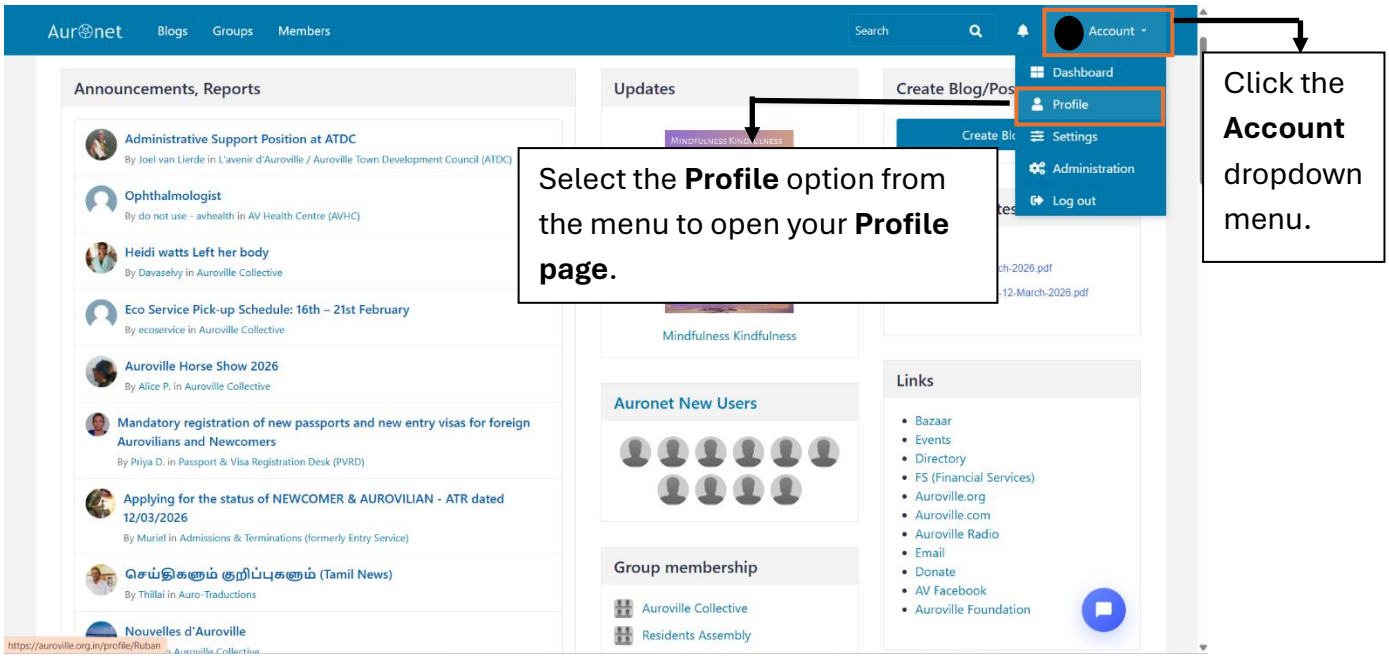
Step 1: Log in to your Auronet account.



Step 2: Navigate to the **Account** menu (top right corner).

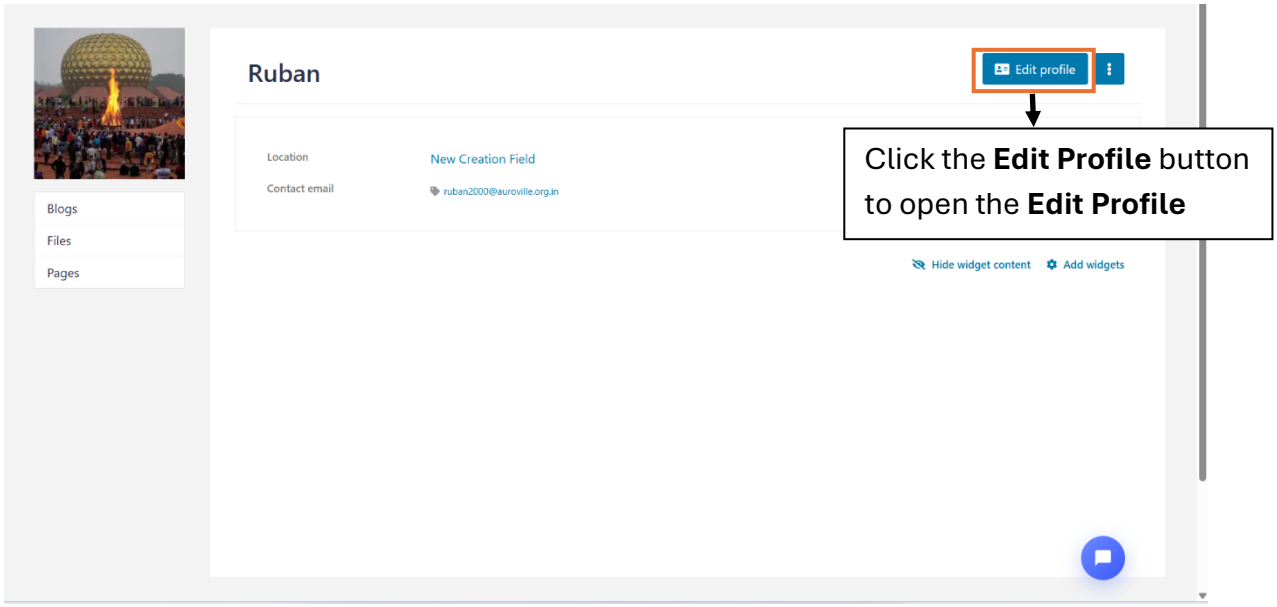


Step 3: Click the **Account** dropdown menu and then Select **Profile**.



Profile Page:

Step 4: Click the **Edit profile** page button to update user profile.



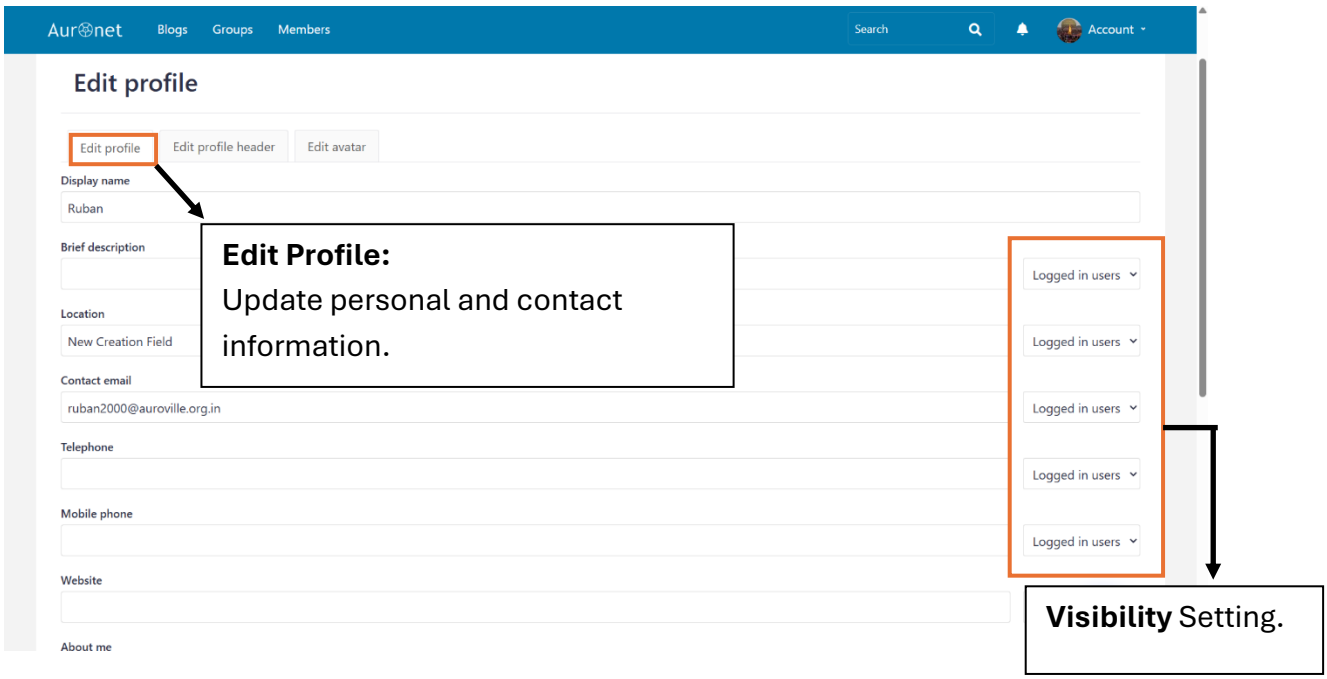
Edit profile Page:

Step 5: There are three sections available to edit your profile:

Edit Profile

Profile Information Fields

- **Display Name:** Enter the name displayed on your profile.
- **Brief Description:** Add a short introduction or bio.
- **Location:** Specify your current location or community.
- **Contact Email:** Provide your email address for contact purposes.
- **Telephone:** Enter your landline number (optional).
- **Mobile Phone:** Enter your mobile number (optional).
- **Website:** Add a personal or professional website link.
- **About Me:** Provide a detailed personal description, background, or interests.



Visibility Settings

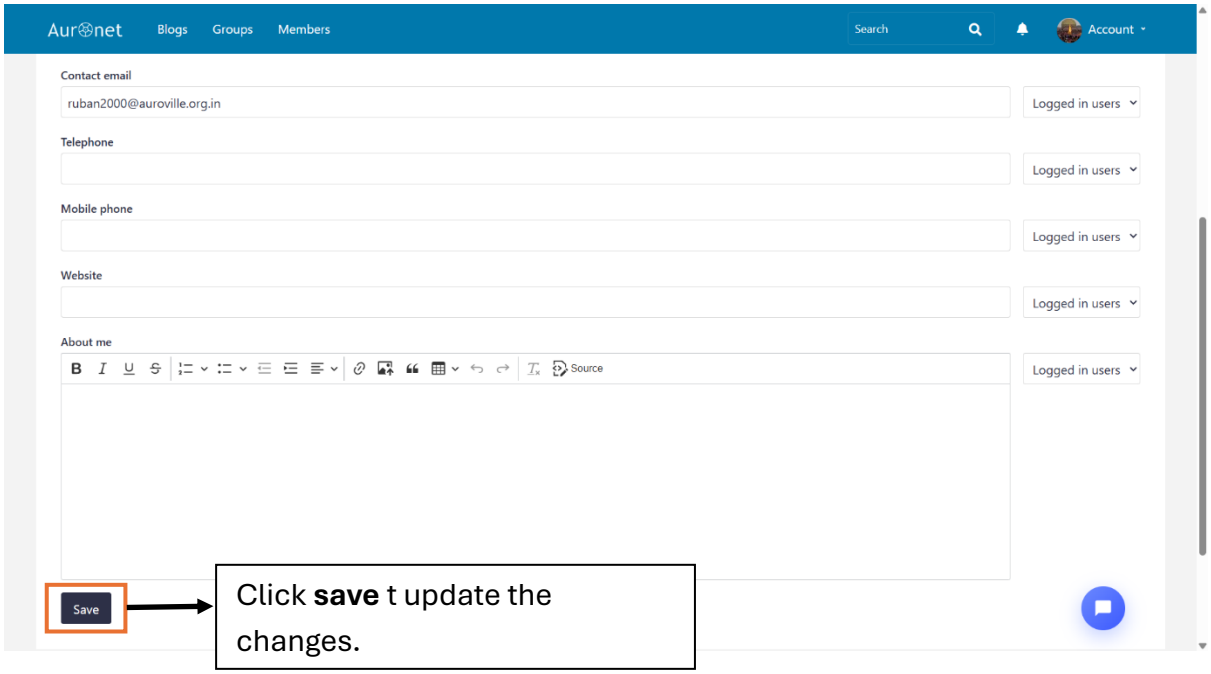
Each field includes a visibility dropdown (**"Logged in users"**) that allows you to control who can view the information.

Available Options

- **Public** – Visible to everyone.

- **Logged in users** – Visible only to authenticated users.
- **Private** – Visible only to you (if available).

Step 6: After filling in the required fields, scroll down and click the **Save** button to update your changes.



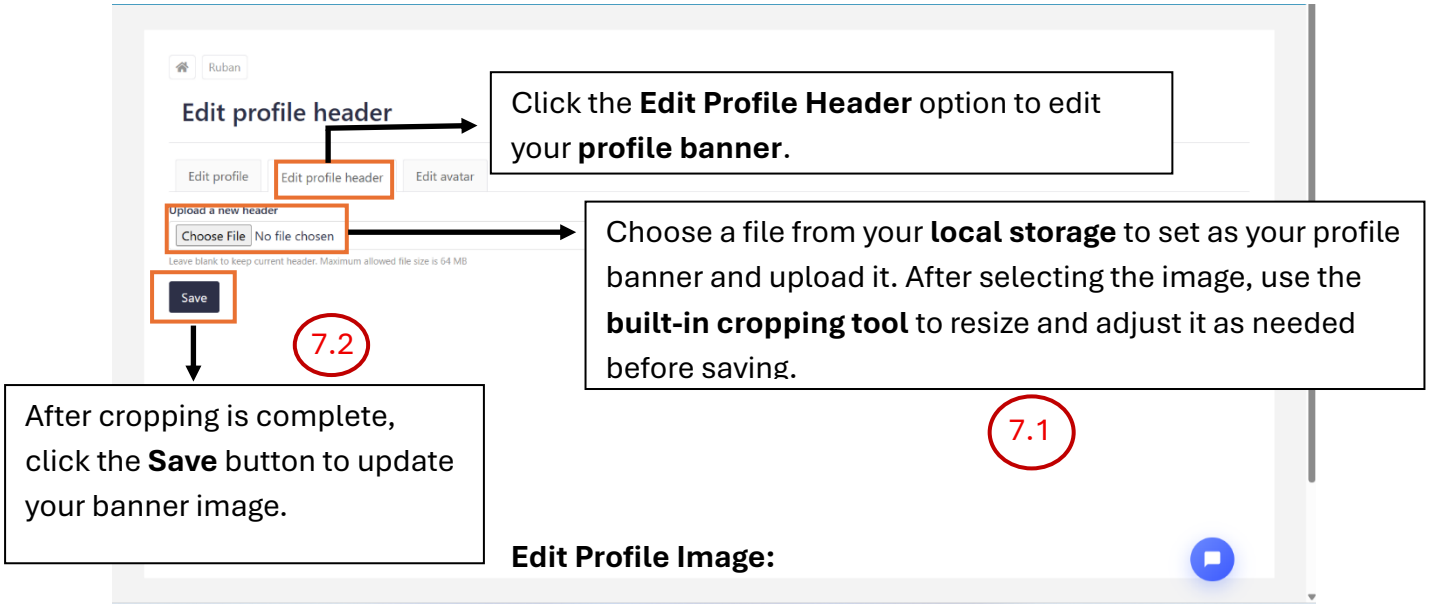
To Edit the header image:

Step 7: Select the edit profile header.

Step 7.1: Choose a photo to upload from the **choose file** button and upload.

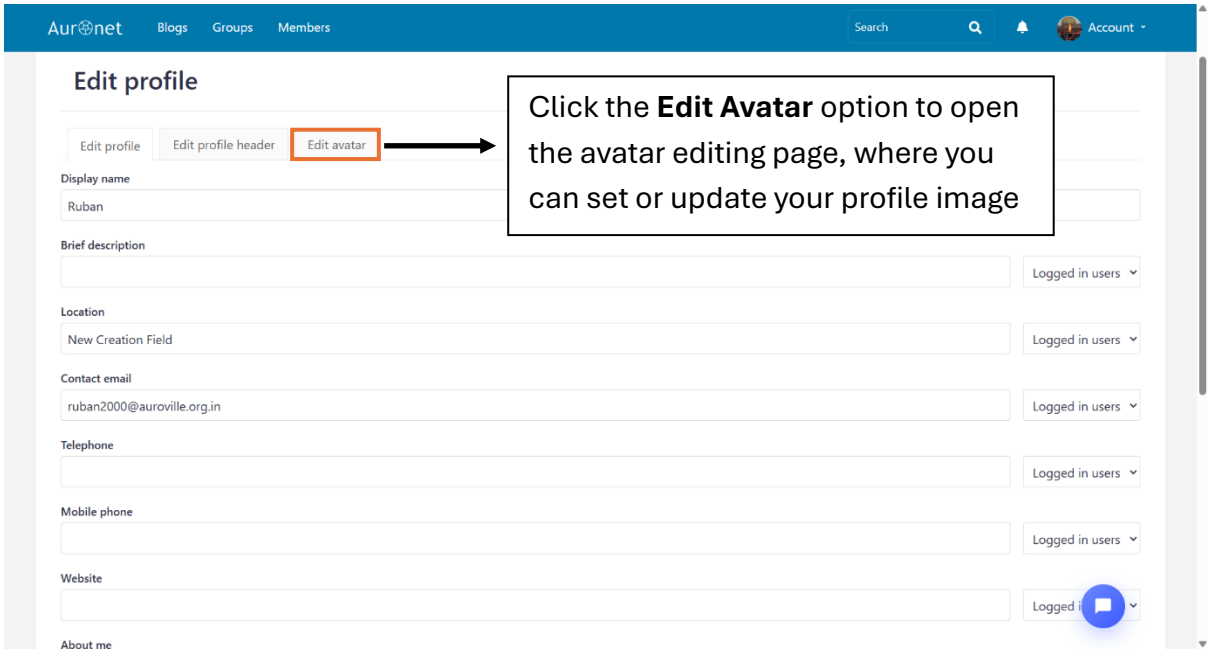
Step 7.2: Click **Save** button to update the header image.

Edit profile header Image:



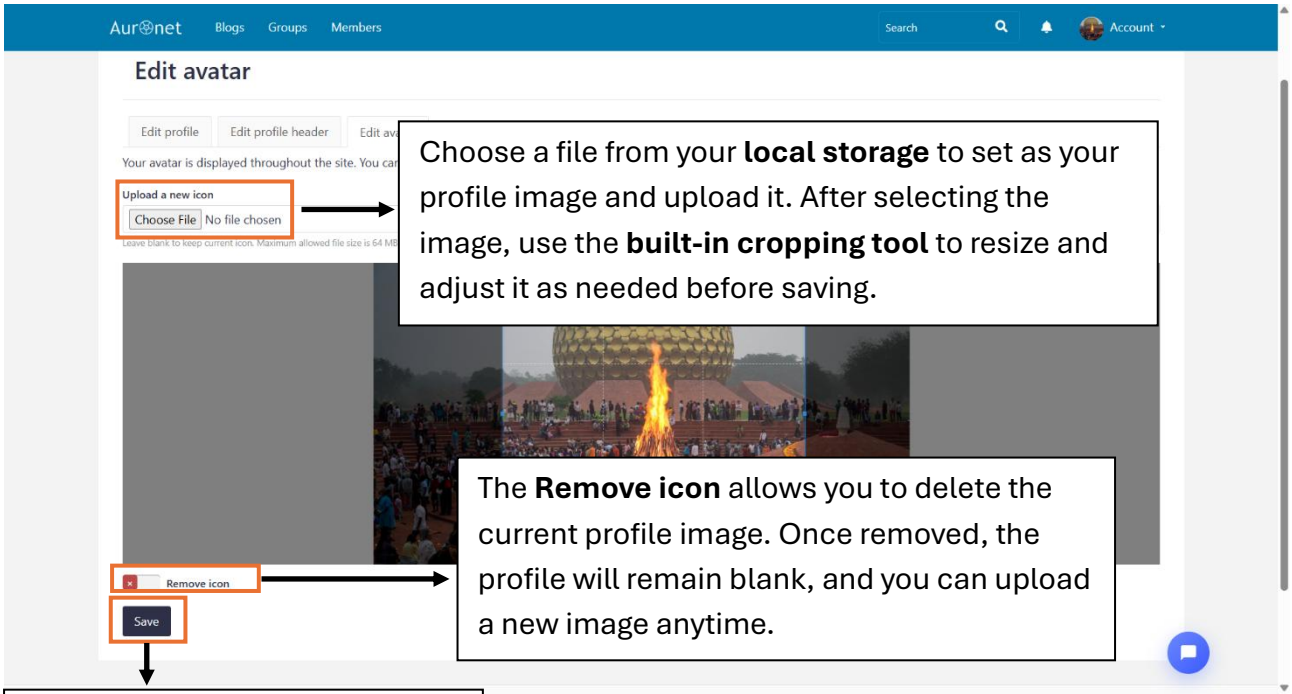
Edit Profile Image:

Step 8: Select the Edit Avatar option from the **Edit Profile** page.



Step 9: Choose a photo to upload from the **choose file** button and upload.

Step 9.1: Click **Save** button to update the profile image.



Choose a file from your **local storage** to set as your profile image and upload it. After selecting the image, use the **built-in cropping tool** to resize and adjust it as needed before saving.

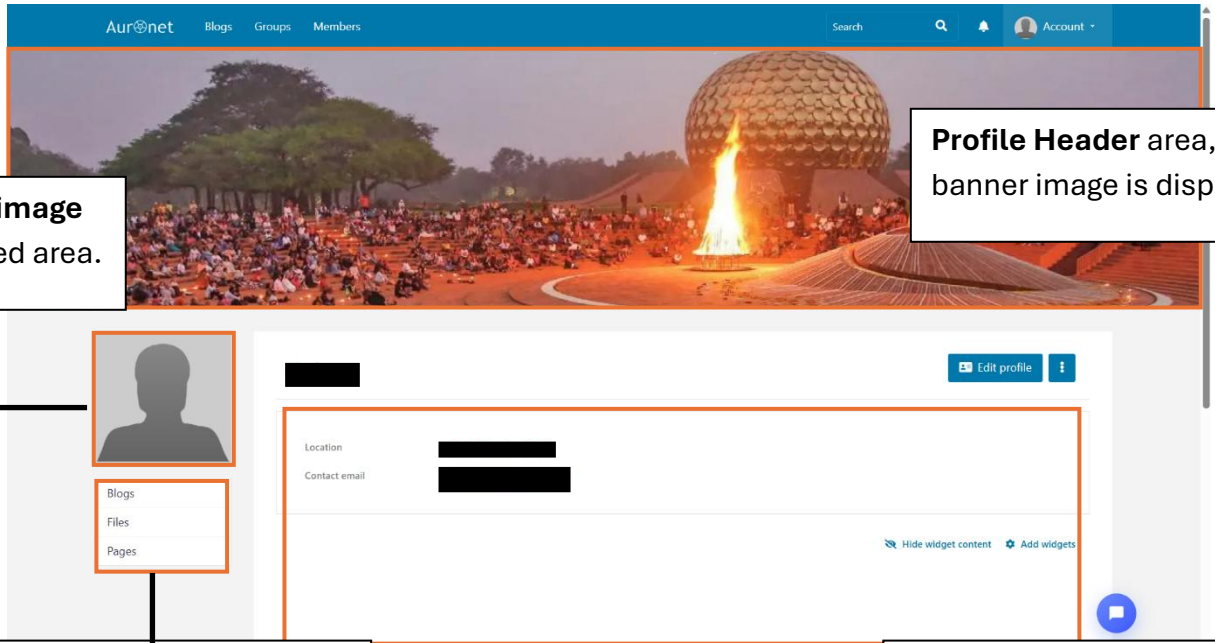
The **Remove icon** allows you to delete the current profile image. Once removed, the profile will remain blank, and you can upload a new image anytime.

After cropping is complete, click the **Save** button to update your profile image.

9.1

Profile Page:

All saved edits will be reflected here: information updated in **Edit Profile**, images updated in **Edit Profile Header**, and the profile picture updated in **Edit Avatar**.



Profile image displayed area.

Profile Header area, where your banner image is displayed.

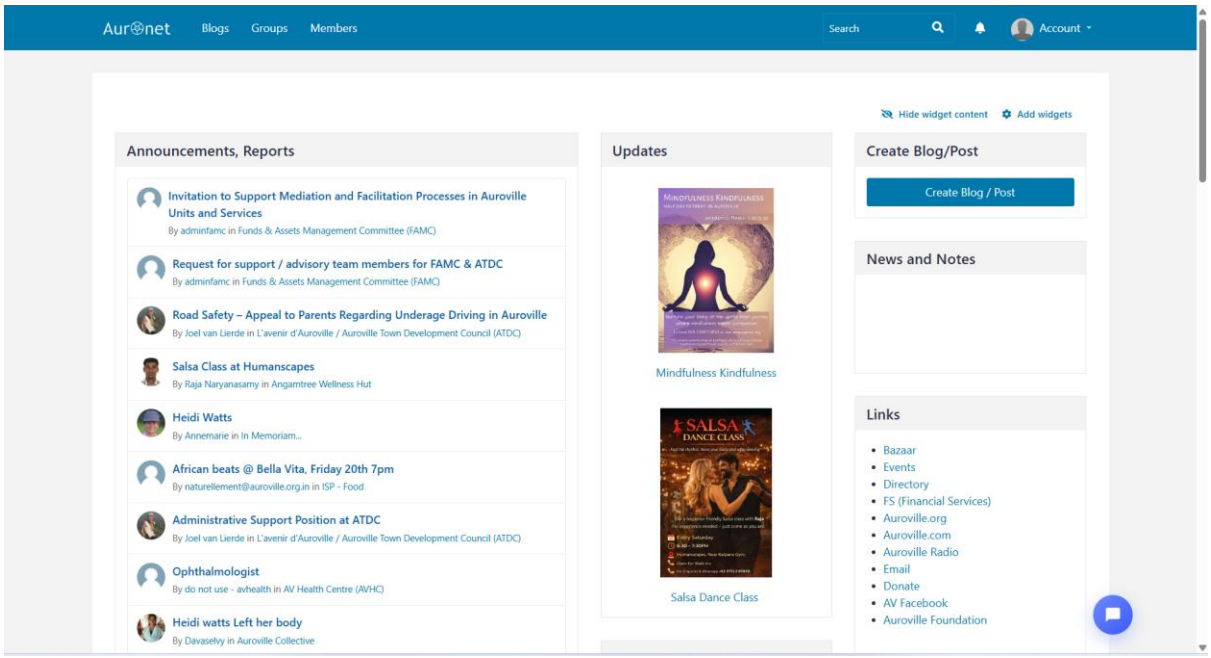
This section displays all the **blogs**, **files**, and **pages** that the user has created.

The **Profile Edit** area is where your personal information is displayed.

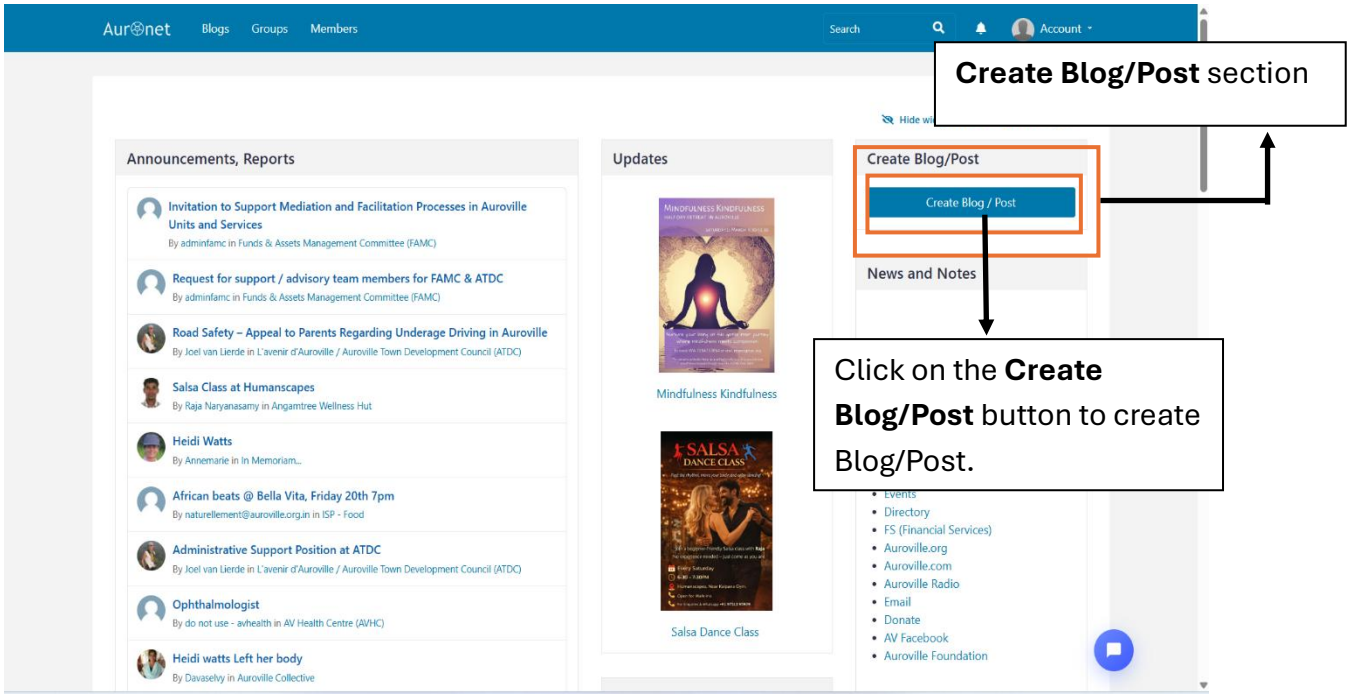
Creating Individual Blog/Post:

Step 1: Log in to your Auronet account.

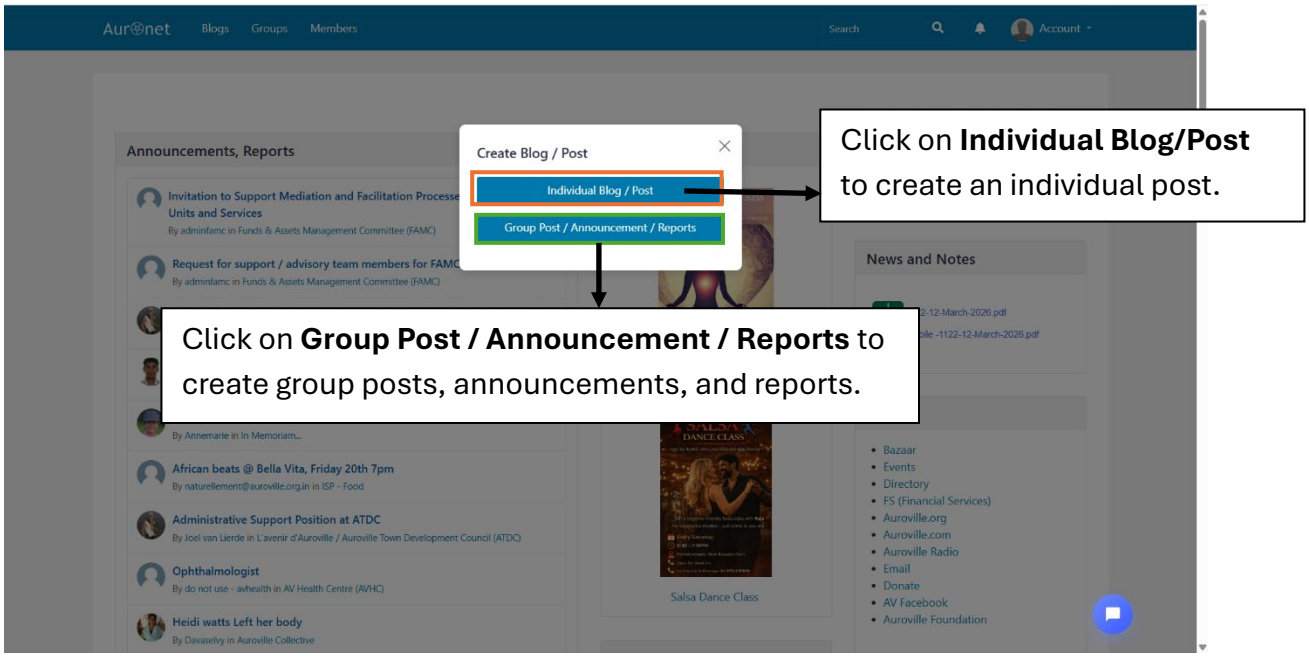
Auronet Homepage:



Step 2: Go to the **Create Blog/Post** section located in the top-right corner and click on it.



Step 3: Once you click **Create Blog/Post**, you will be redirected to choose between creating an **Individual Blog/Post** or a **Group Post / Announcement / Reports**.



To Create Individual Post:
